Progress through cooperation

Region Västerbotten oversees regional development in Västerbotten County, northern Sweden. We support positive development in the region order to enhance its attractiveness and enable the citizens of Västerbotten County to enjoy the best possible quality of life.

Region Västerbotten supports, promotes and participates in the development of Västerbotten County. Through Region Västerbotten, the county's 15 municipalities and Västerbotten County Council take clear political responsibility for development. This includes modern, sustainable communications and good social services that transcend municipal and administrative boundaries. We also promote business and commerce. Region Västerbotten also promotes business and commerce.

We would like to give more people the chance to discover the opportunities northern Sweden offers for financial and personal growth.

Business & Commerce and Social Structure works strategically for the benefit of the entire region in the areas of international issues, IT, environment, energy and climate, business/commerce and innovation, infrastructure, healthcare and nursing, the public transport, education and skills provision.

The Centre for Research and Development in Social Psychiatry develops the support provided by the community to persons suffering mental health problems.

FoU Västerbotten coordinates and brings existing knowledge centres within the County Council, geriatric care and social services closer together.

Financing and Project Support helps you to find project financing based on the project's focus and geographic location.

Regional Development Planning conducts analyses aimed at achieving better prioritisation. This creates a more focused regional development strategy and improves our ability to influence both Swedish and European growth policies.

Regional Cultural Activities is responsible for allocating both County Council and national government funds to support cultural activities in Västerbotten. The development and promotion of cultural activities in Västerbotten in partnership with stakeholders within the county, within Sweden and internationally creates a pleasant community and enhances residents' quality of life.

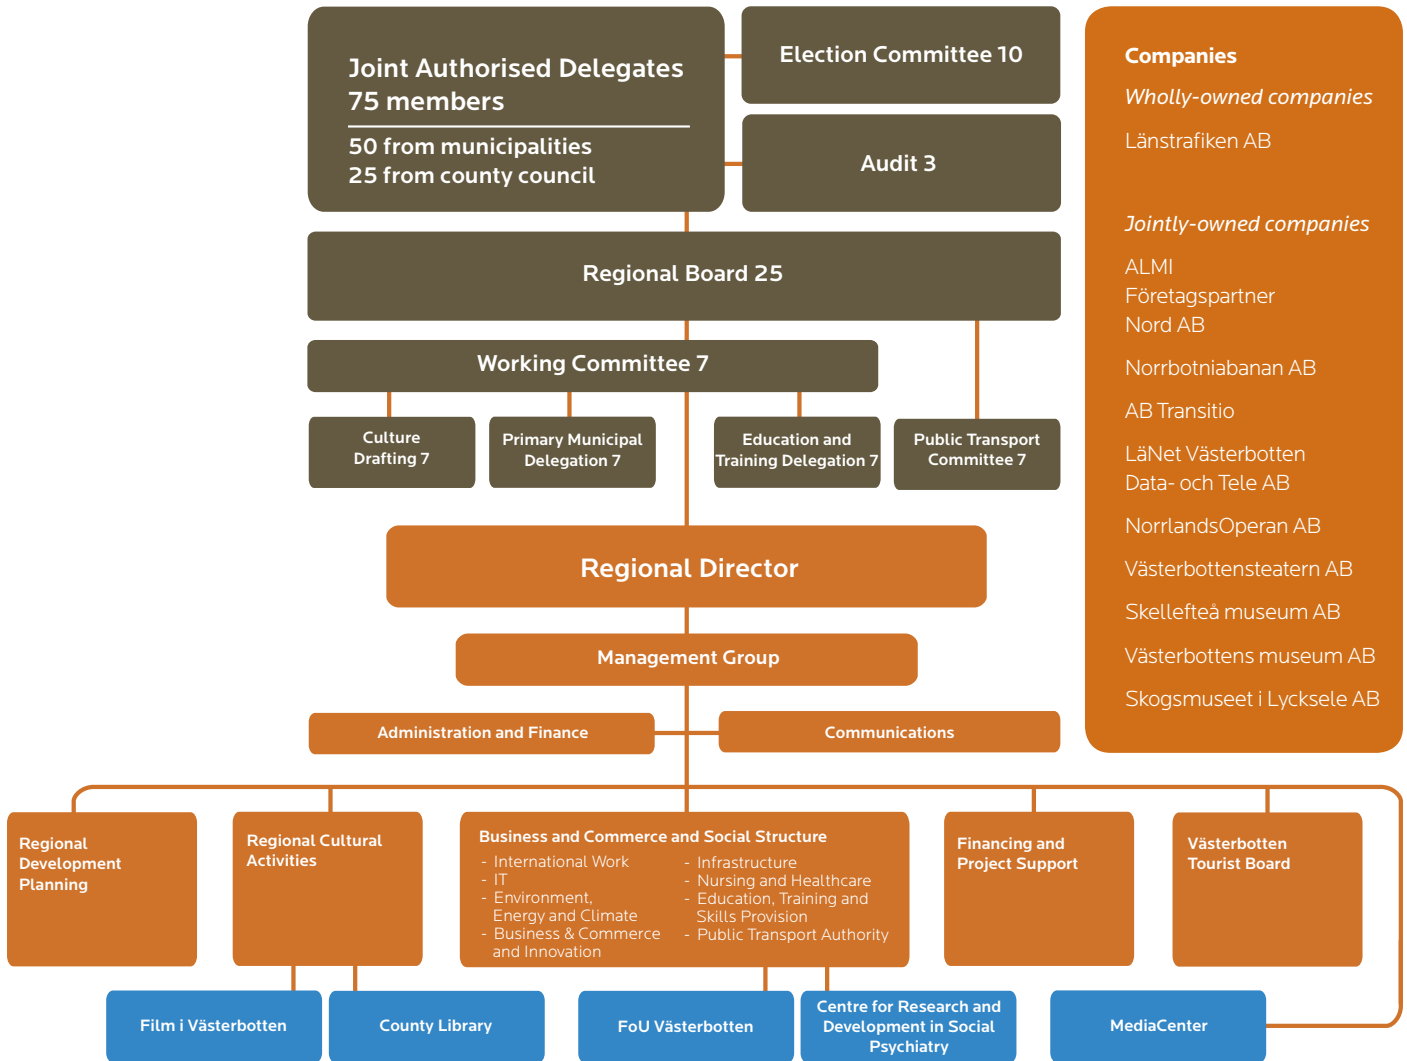

Film in Västerbotten is a resource centre for film and video, tasked with supporting and broadening the film culture in the region.

Västerbotten County Library assists municipal libraries and works to promote overall library facilities in the county. The County Library also operates the county's three hospital libraries.

The Västerbotten Tourist Board creates favourable conditions for tourism, promotes Västerbotten as a tourist destination, assembles competence and coordinates marketing.

MediaCenter works to promote educational development by providing IT, media and culture for the county's schools.

A Global Future

The world is constantly evolving. In order to remain at the forefront of development, Region Västerbotten carefully monitors the international scene and uses the insight it gains to provide opportunities for the county's stakeholders.

Some other important tools that Västerbotten uses to stay ahead are creativity, innovation and cooperation with universities, business and industry and national and international networks.

Region Västerbotten's Purpose

We lay strategic plans and finance Västerbotten's development within the fields of culture, business and industry, IT, environment, energy and climate, transport and public transport, education, training, health-care, nursing and social issues.

We harness the county's collective strengths through academia, business and industry, politics and civil society. We coordinate the county's stakeholders and act as a collective force for promoting Västerbotten in Sweden, Europe and the world.

Region Västerbotten owns companies that are strategically important for the county's culture, business and industry and transport. Our projects support the business community and the development of the region, all with the ultimate goal of benefitting local residents.

Region Västerbotten also carries out assignments on behalf of public authorities.
