

# The visitation ban ceases

New restrictions are introduced

## Keep in mind at your visit:

- You must be symptom-free and not have met anyone with COVID-19 in the last 14 days.
- Keep a distance from others and have good hand hygiene.
- Only meet the person you are here to visit.
- Visit us alone. If you need support, only one person is allowed to accompany the visit. Children's legal guardians are always allowed.
- Avoid staying in public areas.
- Use a face mask.
- The rules apply even if you have been vaccinated.

Thanks you for your consideration!
